

Low Odour – High Performance

Do you need a Roland plug & print ink system that features suitability for a wide substrate range, coupled with highest resistances? The new DI-LSX satisfies your and your customer's needs: Great performance even on low-priced materials, for perfect results.

Applications

MaraJet DI-LSX was especially developed for Roland printers.

MaraJet DI-LSX may also be used on printers with identical construction employing Roland inks, or similar.

The DI-LSX substrate range includes

- different qualities of PVC self-adhesive foils (monomeric, polymeric and cast PVC films)
- other PVC coated materials and tarpaulins
- textiles
- suitable papers

Characteristics	MaraJet DI-LSX
Plug & Print Compatibility	+++
Resistance	+++
Drying	+++
Printing stability	+++

For further information please refer to the Technical Data Sheet on www.marabu-inks.com

Your Benefits:

Perfectly adapted colour shades for best Plug & Print compatibility

→ Change-over without having to adjust the colour profiles

Outstanding scratch and chemical resistance

→ Convenient use, high durability for extreme stress

Very fast drying properties

→ Perfectly suited for fast printing speeds and roll-to-roll print jobs

Mild, low-odour solvents

→ Very user-friendly

High-grade pigmentation

→ Excellent light fastness for long-term outdoor applications

More application possibilities with coloured metallic effects

→ Reproduction of silver, gold, bronze, and other pearlescent colours

Available in different units

→ Full flexibility for differing ink consumptions
